Lynnda,

I left you a message regarding the Monument data call (see attached). Since we can't run custom queries in RAS, we will probably need your assistance to fulfill the data request. The due date for response (locally) is May 26, but if that is not adequate time to complete the query, then we can state so and perhaps move the deadline. Will you please call or email me back and let me know your thoughts on this?

Thank you,

-Mark Wimmer

Call for Data Related to Review of National Monuments under EO 13792 (April 26, 2017)

Please help us gather information about each of the items listed below, for each of the National Monuments listed below in Table 1.

1. Documents Requested

- Resource Management Plans/Land Use Plans
- Record of Decision
- Public Scoping Documents
- Presidential Proclamation

Commented [WS(M1)]: All Plans? Or just most recent...?

Commented [WS(M2)]: Related to the plans, I assume, which should be in our administrative record, but depending on which plans the data call are referring to, please clarify.

2. Information on activities permitted at the Monument, including annual levels of activity from the date of designation to the present

- Recreation - annual visits to site
- Energy - annual production of coal, oil, gas and renewables (if any) on site; amount of energy transmission infrastructure on site (if any)
- Minerals - annual mineral production on site
- Timber - annual timber production on site (in board-feet, CCF, or similar measure)
- Grazing - annual grazing on site (AUMs permitted and sold)
- Subsistence - participation rates for subsistence activities occurring on site (fishing, hunting, gathering); quantities harvested; other quantifiable information where available
- Cultural - list of cultural uses/values for site; number of sites; other quantifiable information where available

2. Information on activities occurring during the 5 years prior to designation

- Recreation - annual visits to site
- Energy - annual production of coal, oil, gas and renewables (if any) on site; amount of energy transmission infrastructure on site (if any)
- Minerals - annual mineral production on site
- Timber - annual timber production on site (in board-feet, CCF, or similar measure)
- Grazing - annual grazing on site (AUMs permitted and sold)
- Subsistence - participation rates for subsistence activities occurring on site (fishing, hunting, gathering); quantities harvested; other quantifiable information where available
- Cultural - list of cultural uses/values for site; number of sites; other quantifiable information where available

Commented [WS(M3)]: This should be #3

3. Information on activities that likely would have occurred annually from the date of designation to the present if the Monument had not been designated

- Recreation - annual visits to site
- Energy - annual production of coal, oil, gas and renewables (if any) on site; amount of energy transmission infrastructure on site (if any)
- Minerals - annual mineral production on site
- Timber - annual timber production on site (in board-feet, CCF, or similar measure)
- Grazing - annual grazing on site (AUMs permitted and sold)

Commented [WS(M4)]: This should be #4

Commented [WS(M5)]: This question is purely speculative and I would be remiss in attempting to answer these questions.

- f. Subsistence - participation rates for subsistence activities occurring on site (fishing, hunting, gathering); quantities harvested; other quantifiable information where available
 - g. Cultural - list of cultural uses/values for site; number of sites; other quantifiable information where available
4. **Changes** to boundaries - dates and changes in size
 5. Public Outreach prior to Designation - outreach activities conducted and opportunities for public comment
 6. Terms of **Designation**

Commented [WS(M6)]: This should be 5, with 6 and 7 to follow

Commented [WS(M7)]: Not sure what this means, necessarily, but the proclamation should answer this on its own. How we implement/translate this is found in our RMP/GMP decisions and they should speak for themselves.
